An update from the Secretary of State for Education on wider opening of education and early years settings

In a statement made yesterday in the House of Commons the Secretary of State for Education said that the Department for Education continues to follow the best scientific advice and that this cautious, phased return of education and childcare settings is the most sensible course of action to take. While we are not able to welcome all primary children back for a full month before the summer, we are working with the sector on the next steps to allow schools that have the capacity to bring back more children in smaller class sizes to do so before the summer holidays. We will provide further details in the coming days.

Informing the Department for Education of the death of a colleague across children's services

We are asking employers and providers to tell the Department for Education if a carer or colleague across children's services has died. There is no legal duty on employers and providers to submit this information to the department, however this information will help to make sure the appropriate steps can be taken following the death of a colleague.

To notify the department of a death, please email:

Department for Education coronavirus helpline

The Department for Education coronavirus helpline is available to answer questions about COVID-19 relating to education and children's social care. Staff, parents and young people can contact this helpline as follows:

Phone: 0800 046 8687

Opening hours:

8am to 6pm – Monday to Friday
10am to 4pm – Saturday and Sunday

If you work in a school, please have your unique reference number (URN or UK PRN) available when calling the helpline.

Updated handwashing advice

It is essential that everyone washes their hands more often, using soap and water for at least 20 seconds. Hand washing with soap employs mechanical action that loosens bacteria and viruses from the skin, rinsing them into the drain. Drying hands afterwards makes the skin less hospitable to the virus. Hand sanitiser can be effective if soap is not available or the situation makes using soap less feasible (i.e. when outside) but using hand sanitiser provides none of the virus-destroying friction that rubbing your hands together and rinsing with water provides.

The latest guidance and video on hand washing can be found at:

The e-Bug project is led by Public Health England and has a dedicated webpage for learning resources on hand washing and respiratory hygiene. E-Bug has published posters on hand hygiene, and covering coughs and sneezes, to display in bathrooms, classrooms and shared spaces.
