### **Celebrating Thank a Teacher Day**

Today we are saying thank you to teachers, senior leaders, support staff and all those working in education settings who are making a difference to their schools and communities during the coronavirus outbreak. To mark the day, you can send a free thank you card to a colleague.

The Secretary of State for Education, Gavin Williamson, said: "Thank a Teacher Day gives us all a great opportunity to thank everyone working in education, but I especially wanted to express my respect and admiration for all staff in nurseries, schools and colleges for going above and beyond to help this country tackle coronavirus and continue to support young people."

## **Handwashing advice**

It is essential that everyone washes their hands more often, using soap and water for at least 20 seconds. Hand washing with soap employs mechanical action that loosens bacteria and viruses from the skin, rinsing them into the drain. Drying hands afterwards makes the skin less hospitable to the virus. Hand sanitiser can be effective if soap is not available or the situation makes using soap less feasible (i.e. when outside) but using hand sanitiser provides none of the virus-destroying friction that rubbing your hands together and rinsing with water provides.

The latest guidance and video on hand washing can be found at:

The e-Bug project is led by Public Health England and has a dedicated webpage for learning resources on hand washing and respiratory hygiene.

Resources are currently available for KS1, KS2 and KS3 and can be used in various settings including schools and at home:
