Working out money problems.

Use partitioning to add money amounts:

1) 16p + 12p + 13p= 41p

First add the 10s
10 + 10 + 10 = 30p

Next add the ones:
6 + 2 + 3 = 11p

Lastly add these totals together:
30p + 11p = 30 + 10 + 1
= 41p

---

2) 22p + 12p + 11p=

First add the 10s

Next add the ones:

Lastly add these totals together:

3) 25p + 15p + 13p=

First add the 10s

Next add the ones:

Lastly add these totals together:

---

4) 35p + 25p + 11p=

First add the 10s

Next add the ones:

Lastly add these totals together:

Now make up 2 of your own:
