

Monday 1st of June 2020

Dear parents and carers

I hope you had a lovely half term break and managed to get outside and enjoy this lovely weather. I am in the process of making new home learning packs, which will be ready to send out next week. Please let me know during our telephone conversations this week what your children has worked well on and if you have any requests for your home learning packs.

English:

Hawthorn Class enjoy listening to stories and this term we had planned to read Katie in London. This week I would like them to read the story. I have found this book on You tube. <https://www.youtube.com/watch?v=5jv8RhfDwW0>.

Once your child has read this story please use lessons 1-3 provided by the Oak National Academy to support your child's learning.<https://www.thenational.academy/online-classroom/year-1/english#subjects>

A good way to practice your writing is to write a letter to one of your classmates, a family member, or a friend. You could write a letter and send in the post or post it through a letterbox. If those options are not possible you could send your letter as an attachment in an email to Woodsideoffice@bwf.eduation. A member of the office staff will then send it out to your friend in the post.

Phonics and Grammar Online Learning:

The BBC has a Smalltown Superheroes game which covers many aspects of English as well as some phonics games. (You must scroll down). <https://www.bbc.co.uk/bitesize/articles/zmpm6v4>

Using capital letters and fullstops: <https://www.bbc.co.uk/bitesize/articles/zhr7mfr>

I found this song to remind students about capital letters and full stops. Listen if you dare!
<https://www.bbc.co.uk/teach/supermoves/ks1-english-capital-letters-full-stops/zjmrhbk>

Maths:

We have been learning to count in 2's 5's and 10's and most of the class are quite secure in this now. I have added some You tube links to songs we have used in school to help us.

Counting in 2s <https://www.youtube.com/watch?v=OCxvNtrcDI&t=70s>

Counting in 5s <https://www.youtube.com/watch?v=amxVL9KUmq8>

Counting in 10s <https://www.youtube.com/watch?v=7stosHbZZZg&t=77s>

Practice counting in 2's, 5's and 10s. Counting up to 50 then 100 and discussing number patterns on a 100 square would be wonderful activities to practice at the moment, as I am very aware this is what we are missing in class.
This link will take you to an interactive 100 square which can also be printed out.

<https://www.topmarks.co.uk/learning-to-count/paint-the-squares>

Science:

Try planting seeds from the fruit or vegetables that you eat. You can also chop off the tops of any root vegetables and place them on a saucer of water. Watch what happens after a week or so.

<https://www.youtube.com/watch?v=Jze8utzpLhg>

If you have taken photographs of your own children completing any of these tasks or would you would like to share an activity you have done or are doing at home. If you are happy for photographs to be shared on this web page. Please email them to the Woodsideoffice@bwf.eduation

Stay safe and have fun!

Regards

Mrs Lainson, Mrs Flannagan and Miss Wilson
