

Mount Everest

Your task is to produce a **two page** fact sheet about Mount Everest. You should include illustrations, but make sure that you also have important and interesting facts about the mountain. Aim to have a **minimum of 10** facts. Your fact sheet should be presented to a high standard and be informative! Fact sheets can be word processed or neatly hand-written. You might want to include information about the following:

- The height of Mount Everest
- Its location - latitude and longitude
- Climate
- Who are the Sherpas?
- Problems that can arise when climbing

You could also produce a fact sheet for the other mountain ranges that Matt Wood will be climbing: The Pyrenees and Mont Blanc.
