

Timetable suggestions

Most children at Woodside find routine important and like to know what is coming next. Having your own version of a timetable, whatever might be on it, can really help at home. In school, we would use visuals and words to set out the order of the day.

Twinkl website has some good timetables which you can use if you would like to. Feel free to change them to suit you, perhaps substituting some activities with ones provided by school. They also come with links to help with task ideas for all age ranges. We strongly suggest you focus on the level which is right for your child, and the targets they are working on in school, rather than focus on age.

From Tuesday 28th April 2020, these will be uploaded daily into the general resources folder, so please feel free to access these for extra ideas and fun tasks to do.

Enjoy!

Mrs Holman
