

Year 3 to Year 6 weekly challenges

Change

Choose a challenge to complete. You could also ask an adult to share your challenge on Twitter @Cornerstonesedu or Instagram @cornerstonesedu.

Change for good

Think about something that you, or your family, can change for the better. It could be being kinder or more helpful to each other, or maybe to reduce your food waste. Organise a vote if needed. Create a household pledge to display, which everybody can sign. Arrange a follow up meeting to discuss how it is going.

Dear future me

Create a time capsule that can only be opened by your future self. Include a letter about your life today, listing your interests, habits, friends, favourite foods and so on. Add a recent photo and any objects that you can spare that represent your life now. Write future you a message.

All change

Think about a change that has happened in your life. It could be in your family, your school or something in the wider world. Write and draw about how the change has affected you or others. Do you feel positive, negative or neutral about the change? Create a report, poem or comic strip to record what happened before, during and after the change.

Lounging around

Use a safe web browser to research how the living room has changed over the years. Has the way that people use them changed? What key inventions have transformed the ways in which we use our living rooms? Construct a detailed timeline to show the changes in the living room, going as far back in history as you can.

Colourful chameleons

Find out about the wonderful, colour changing adaptation of chameleons, creating an eye-catching fact sheet or model to present your findings. How and why do these lizards change colour?

Liquid magic

Find out about how water changes state between solid, liquid and gas. Now investigate your indoor and outdoor areas to find examples of liquids that change (or have changed) states, through evaporation, freezing, melting and condensation. Draw clear diagrams to explain the changes.
