

Coin toss

Get Set 4 P.E.

What you need: A frying pan, 3 markers and 6 coins.

How to play:

- Place the markers at 1m intervals from the frying pan.
- Players try to toss the coin into the frying pan from the first marker.
- If successful they retrieve their coin and move on to the next marker.
- If they are unsuccessful they are not allowed to retrieve the coin and so only have 5 attempts left.
- Players must complete each marker within 6 attempts to complete the challenge.
- Make this harder by using a smaller target.
- Make this easier by allowing players to retrieve their coins when not successful.
